18 September 1957

Dear Sid:

Burt's Technical Proposal For Data-Conversion Equipment has been reviewed by Jim S. at the request of Russ.

Jim feels as follows:

"By rebuilding the K and M racks, they change time from aural to digital. This can be done much easier if desired. No change in K rack is necessary. The M rack change can be simplified.

This seems to me to require careful justification. It does so little toward automation as to seem to be of no value.

If automation is desired, it seems more practical to use a more direct approach."

Would you please pass this information on to Russ for me?

Yours very truly,

Dan
